MINERVA

INDEX TO VOLUME XV

Nos. 1–4, Spring 1977—Autumn–Winter 1977, inclusive

[Issue numbers are in bold type]

Academic Conviviality (Reports and Documents), **2,** 214

Academic Life, The Soil and Air of (Reports and Documents), **2,** 200

Academy of Sciences, The Rise of the: Government and the Technological Sciences in the Soviet Union, **2,** 174

An Approach to the Central Planning of British Science: The Formation of the Advisory Council on Scientific Policy, **2,** 119

Austrian Nuclear Energy Policy, Information and Opposition in, **3–4,** 314

Autonomy and Accountability of Basic Research, **1,** 32

BAUER, PETER, Reflections on Western Technology and "Third World" Development, **2,** 144

BEN-DAVID, JOSEPH, The Central Planning of Science (review of *The Research System*, Vols. I, II and III, OECD), **3–4,** 539

—— The Implantation of the Scientific Tradition in Developing Countries (review of *Beginnings of Brazilian Science*, Nancy Stepan), **1,** 102

Books reviewed:

Beginnings of Brazilian Science: Oswaldo Cruz, Medical Research and Policy 1890–1920 (Nancy Stepan), **1,** 102

The Brain Drain: Determinants, Measurement and Welfare Effects (Herbert G. Grubel and Anthony Scott), **3–4,** 553

Books reviewed—*cont.*

The Brain Drain and Taxation, II: Theory and Empirical Analysis (J. N. Bhagwati, ed.), **3–4,** 553

Governing Science and Technology (W. Henry Lambright), **2,** 264

The Research System: Comparative Survey of the Organisation and Financing of Fundamental Research: Vol. I, II, and III (OECD), **3–4,** 539

Scientific Elite: Nobel Laureates in the United States (Harriet Zuckerman), **1,** 105

Sociobiology: The New Synthesis (Edward O. Wilson), **1,** 94

Taxing the Brain Drain, I: A Proposal (J. N. Bhagwati and M. Partington, eds.), **3–4,** 553

A World Destroyed: The Atomic Bomb and the Grand Alliance (Martin J. Sherwin), **2,** 147

BRICKMAN, RONALD, The Promotion of Mobility of Scientists: A Problem of French Science Policy, **1,** 62

British Science, An Approach to the Central Planning of: The Formation of: The Formation of the Advisory Council on Scientific Policy, **2,** 119

The Central Planning of Science (review of *The Research System*, Vols. I, II, III, OECD), **3–4,** 539

The Criteria of Choice in Medical Policy: Radiotherapy in Massachusetts, **1,** 15

The Danish University between the Millstones, **3–4,** 335

The Danish University Between the Millstones (Reports and Documents), **3–4,** 377

The Distinctiveness and Universality of Science: Reflections on the Work of Professor Robin Horton, **2,** 155

DUPREE, A. HUNTER, "Sociobiology" and the Natural Selection of Scientific Disciplines (review of *Sociobiology: The New Synthesis,* Edward O. Wilson), **1,** 94

ELKANA, YEHUDA, The Distinctiveness and Universality of Science: Reflections on the Work of Professor Robin Horton, **2,** 155

French Science Policy, A Problem of: The Promotion of Mobility of Scientists, **1,** 62

German University, The Legislator and the **3–4,** 286

GILLICK, MURIEL, The Criteria of Choice in Medical Policy: Radiotherapy in Massachusetts, **1,** 15

Government and the Technological Sciences in the Soviet Union: The Rise of the Academy of Sciences, **2,** 174

GUMMETT, PHILIP J. and PRICE, GEOFFREY L., An Approach to the Central Planning of British Science: The Formation of the Advisory Council on Scientific Policy, **2,** 119

HENNIS, WILHELM, The Legislator and the German University, **3–4,** 286

HIRSCH, HELMUT and NOWOTNY, HELGA, Information and Opposition in Austrian Nuclear Energy Policy, **3–4,** 314

Horton, Reflections on the Work of Professor Robin: The Distinctiveness and Universality of Science, **2,** 155

The Implantation of The Scientific Tradition in Developing Countries (review by Joseph Ben-David), **1,** 102

Information and Opposition in Austrian Nuclear Energy Policy, **3–4,** 314

The International Scientific Community: Ideas Move Around Inside People (Reports and Documents), **1,** 83

Internationalist and Nationalist Models in the Analysis of the Brain Drain: Progress and Unsolved Problems (review of *The Brain Drain,* Herbert G. Grubel and Anthony Scott; *Taxing the Brain Drain, I,* J. N. Bhagwati and M. Partington [eds.]; and *The Brain Drain and Taxation, II,* J. N. Bhagwati [ed.]), **3–4,** 553

JOHNSON, HARRY G. The Shadow of Keynes (Reports and Documents), **2,** 201

Keynes, The Shadow of (Reports and Documents), **2,** 201

KINDLEBERGER, C. P., Internationalist and Nationalist Models in the Analysis of the Brain Drain: Progress and Unsolved Problems (review of *The Brain Drain,* Herbert G. Grubel and Anthony Scott; *Taxing the Brain Drain, I,* J. J. N. Bhagwati and M. Partington [eds.]; and *The Brain Drain and Taxation, II,* J. N. Bhagwati [ed]), **3–4,** 553

The Legislator and the German University, **3–4,** 286

LEWIS, ROBERT A., Government and the Technological Sciences in the Soviet Union: The Rise of the Academy of Sciences, **2,** 174

MAZUR, ALLAN, Science Courts, **1,** 1

MEDAWAR, P. B., The "Ultra-Elite" of Science (review of *Scientific Elite: Noble Laureates in the United States*, Harriet Zuckerman), **1,** 105

Medical Policy The Criteria of Choice in: Radiotherapy in Massachusetts, **1,** 15

The Military Potential of Civilian Nuclear Energy: Moving Towards Life in a Nuclear Armed Crowd? (Reports and Documents), **3–4,** 387

Moving Towards Life in a Nuclear Armed Crowd?: The Military Potential of Civilian Nuclear Energy (Reports and Documents), **3–4,** 387

NICHOLSON, HEATHER JOHNSTON, Autonomy and Accountability of Basic Research, **1,** 32

NOWOTNY, HELGA and HIRSCH, HELMUT, Information and Opposition in Austrian Nuclear Energy Policy, **3–4,** 316

Nuclear Energy Policy, Information and Opposition in Austrian **3–4,** 314

Nuclear Energy, The Military Potential of Civilian: Moving Towards Life in a Nuclear Armed Crowd? (Reports and Documents), **3–4,** 387
